

TRANSFORMERS

From 30 kVA up to 1,200 MVA

THE SGB-SMIT GROUP: NETWORK OF TRANSFORMER SPECIALISTS

Power supply companies and industrial enterprises world-wide rely on the products and services of the SGB-SMIT Group with subsidiaries in Germany, the Netherlands, Romania, France, the Czech Republic, USA, Malaysia, China, India and South Africa.

Resulting from a merger of locally operating, highly successful medium-sized companies, the SGB-SMIT Group represents today an efficient international network. A combination which unites the “best of both worlds” for our customers: globally speaking, we offer world-class quality and market expertise. Locally speaking, our customers benefit from lean structures and short distances as regards planning and production, transport and service.

Due to the close collaboration with our customers, this results in focused development. Permanent and structural improvement of the ongoing projects ensures fine-tuning of the services required locally on site.

The SGB-SMIT Group focuses exclusively on the manufacture of transformers which satisfy all requirements demanded by the nationally applicable standards. Sales and service centers on all continents ensure optimum processes. SGB-SMIT stands for professionalism, experience, technological expertise, reliability and economic efficiency – these are the skills on the basis of which the Group develops and produces power transformers from 30 kVA up to incl. 1,200 MVA within the voltage range of up to 765 kV.
